What is consciousness? What happens when we die? What is the true nature of reality? These questions and more are the primary focus of Norwegian New Paradigm's film, "The Creative Play of Consciousness". The film features interviews with Eben Alexander, Deepak Chopra, Bruce Lipton, the late Edgar Mitchell, Anita Moorjani, Dean Radin, Rupert Sheldrake, and others. Our local panel of experiencers and luminaries will follow with discussion and Q&A. Get ready for an encounter with the limitless, transcendent, and infinite essence of Consciousness. Please join us!

Reservations are not required. All are welcome and seating is available on a first-come, first-served basis. Reserved seating IS available for individuals with hearing, vision, or mobility disabilities.
